

Introducing an Affordable, Effective Team Assessment—easy to launch and easy to use!

Assess and Build Your Team Affordably!

TEAM Assess™

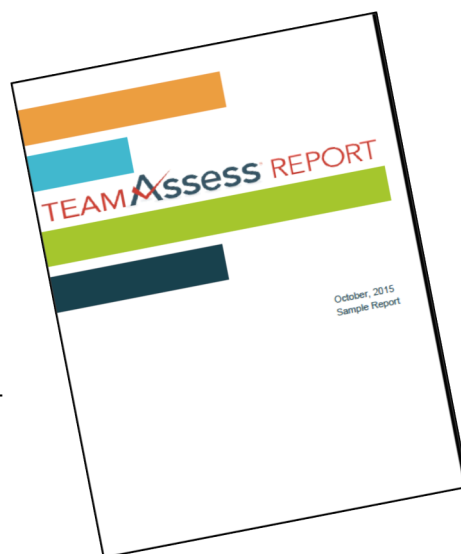

Measuring and building your team's performance is critical to their success. Our new team assessment, called Team-Assess™ allows you to self-administer and score your own affordable team assessment. Imagine how your assessment will motivate the team to improve in key areas.

Then, re-launch a new assessment to benchmark team performance progress. Team-Assess measures six key team performance components; team output, team effectiveness, team leadership, individual contributions, team infrastructure, and organizational support.

Each team performance component is further broken down into corresponding sub-components. The result is a crystal clear picture of how your team members are feeling about their current functioning.

Combine your assessment with telephone or face-to-face coaching for a professional feedback session. Our award-winning team building training can be added to build skills needed for your team to function at their best!
